

NIOTECHONE

SOFTWARE SOLUTION PVT.LTD

We are seeking a highly skilled and experienced **Full-Stack Developer (Angular + Node.js)** to join our dynamic development team. You will be responsible for developing both client-side and server-side web applications, ensuring they are scalable, robust, and efficient. The ideal candidate will have strong communication skills and the ability to collaborate with cross-functional teams.

As a Full-Stack Developer, you will take ownership of the entire development lifecycle, from conceptualizing and designing the architecture to deploying and maintaining applications. Your expertise in Angular and Node.js will be key to delivering high-quality solutions.

Responsibilities:

- Collaborate with product managers, UI/UX designers, and backend developers to define project requirements and implement solutions.
- Design and develop high-quality, scalable, and efficient full-stack applications using Angular and Node.js.
- Build responsive and interactive front-end interfaces using Angular, adhering to design specifications and wireframes.
- Develop RESTful APIs and manage the integration of the front-end with the backend services built on Node.js.
- Conduct thorough testing and debugging to ensure application stability, performance, and cross-browser compatibility.
- Optimize application performance, address bottlenecks, and ensure the best possible experience for users.
- Stay updated with the latest development trends in Angular and Node.js, and share insights with the team to foster technical growth.
- Participate in code reviews and ensure adherence to coding standards and best practices.
- Collaborate effectively with the team to meet project deadlines and deliver high-quality software solutions.

Requirements:

- 3+ years of experience in full-stack development with a focus on Angular and Node.js.
- Proven experience in developing web applications using Angular (Angular 12+) and TypeScript.
- Strong expertise in Node.js, Express.js, and building RESTful APIs.

NIOTECHONE

SOFTWARE SOLUTION PVT.LTD

- Proficient in HTML, CSS, JavaScript, and frontend frameworks.
- Experience with database technologies such as MongoDB or SQL.
- Familiarity with frontend build tools such as Webpack or Angular CLI.
- Strong understanding of web standards, responsive design, and cross-browser compatibility.
- Experience with version control systems (Git) and collaboration tools (JIRA, Confluence).
- Excellent problem-solving skills, with attention to detail.
- Ability to work independently and within a team, with strong communication and organizational skills.

Preferred Qualifications:

- Familiarity with cloud platforms like AWS or Azure.
- Experience with Agile methodologies and working in a CI/CD environment.
- Knowledge of security best practices for web applications.
- **Required Experience: 3+ Years**
- **No of positions: 1**
