Job Title: Shopify + Wordpress Developer

We are looking for a multi-skilled Web Developer with hands-on experience in both Shopify and WordPress platforms. The ideal candidate should be capable of independently handling everything from custom coding to high-converting landing page creation, ensuring responsive, SEO-optimized websites with a strong focus on performance and user experience.

Responsibilities:

- Develop and customize themes (Thrive, Astra, Genesis, OceanWP, etc.)
- Build responsive and fast-loading websites using Elementor, Elementor Pro, Beaver Builder, Divi, WPBakery, Avada, etc.
- Design and develop landing pages, sales funnels, and custom post types
- Manage and configure plugins for added functionalities
- Implement on-page SEO best practices (using Yoast, Rank Math, schema markup, image optimization)
- Use performance optimization techniques: caching, lazy loading, minification, CDN, etc.
- Custom theme development using Liquid
- Build and customize pages using Replo, Shogun, Gem Pages, Zipify, etc.
- Create custom layouts, product pages, and high-converting landing pages
- Implement Shopify-specific SEO practices: meta tags, schema, alt tags, image compression
- Optimise Shopify store speed and Core Web Vitals
- Work with Shopify admin for product, collection, and order management
- Integrate and configure third-party apps and tools

Requirements:

- **Education:** Bachelor's degree in Computer Science, Information Technology, or a related field.
- **Experience:** 2 to 3 years of experience in Shopify development.
